

4 Courses

Summary Statistics in Public Health

Hypothesis Testing in Public Health

Simple Regression Analysis in Public Health

Multiple Regression Analysis in Public Health

Nov 29, 2024

Gerald Amiel Ballena

has successfully completed the online, non-credit Specialization

Biostatistics in Public Health

In this Specialization, learners developed the ability to calculate key biostatistical measures used throughout public health, the biomedical sciences, and other scientific fields. They also learned to interpret the results from various statistical tests and to think critically about the application of statistical methods to specific research questions and data sets.

John McGready, PhD,
MS
Associate Scientist
Department of
Biostatistics

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
